

FOR IMMEDIATE RELEASE

### **Buffalo Precision Products Launches Online Feature to Buy Tool Steel Off-Cuts**

BPP now offers an unsurpassed on-line buying experience for tool steel off-cuts while still offering precision flat ground and drill rod products for customers in the USA & Canada.

August 17, 2021

Elgin, IL/Mississauga, ON - Buffalo Precision Products is pleased to announce its newest feature on the company's online platform. Competitively priced tool steel off-cuts can now be purchased 24/7. Customers can choose from select grades:

USA: P20 Modified, Stainless Pre-Hard Holder and Holder

Canada: P20, P20 High Hard, Premium H13, 420 Annealed

This new feature allows customers the opportunity to purchase pieces of tool steel at an attractive price with the expected ease and reliability of the web shop that customers have come to know.

The Buffalo Precision Products web shop continues to supply precision flat ground and drill rod at competitive prices, while offering extensive grades and sizes along with quick delivery. The web shop is available for customers in the USA and Canada. With the addition of tool steel off-cuts, the BPP website will now have even more options for customers looking for material in addition Metal Additive Manufacturing powders.

Buffalo Precision Products has been devoted to serving the precision flat ground and drill rod market for almost 40 years, forming lasting partnerships and trusted relationships with manufacturers. A diverse customer base can now take advantage of this newest feature.
